## LCA301 ROTATING VANE ANEMOMETER

### Rotating Vane Anemometers

## Model LCA301

The Airflow LCA301 is a light weight, robust, and simple to use Rotating Vane Anemometer that provides accurate and reliable readings every time. Ideal for HVAC commissioning at grilles, ducts, and diffusers; the LCA301 displays readings in metric or imperial mode.

### FEATURES AND BENEFITS

- Reversible 100 mm head allows readings at supply and extract grilles
- Calculates volumetric flow rate
- Compatible with Aircone Flow Hoods
- No density correction factors required
- Automatic averaging of air velocity

### INCLUDED ITEMS

- Instrument
- Carrying case
- Alkaline batteries
- Operation and service manual
- Calibration certificate
