WHEN YOU CAN HIRE

# Expertise for Earths

Earth and Resistivity  
Testers

*Ground,  
earth electrode and  
coupling measurement  
using traditional rod  
methods*

- **3 testers in one:** resistivity, earth, coupling
- **Validation of measurement through automatic check:**  
3 lights indicate the presence of faults liable to impair measurement results
- **Heavy-duty on-site case** with cover for use on difficult grounds
- **Large LCD display with backlighting**

**R**obust and watertight, the C.A 6460 and C.A 6462 are easy-to-use instruments designed specially for use in the field. Wherever you need to install an electric ground connection or certify an existing one, the C.A 6460 and C.A 6462 help you perform accurate, reliable and quick diagnosis while providing the friendliest and safest test environment.

### COMPLETE AND WELL-DESIGNED TOOLS

Using the conventional rod-based method, the C.A 6460 and C.A 6462 measure resistivity ("4-wire" connections), ground resistances ("3-wire" connections) and coupling between electrically independent earth electrodes ("4-wire" connections).

They are equipped with 4 color-coded terminals for easy connection and a captive bar for changing from a 4-wire to a 3-wire measurement very quickly and easily.

Plus, the C.A 6462 is fitted with a rechargeable battery with an internal charger.

### MEASUREMENT AND ERROR DIAGNOSIS

Once the rods have been installed and connected (named E, ES, S and H), begin measurement by simply pressing the push-button. For maximum accuracy, the range and current selection is carried out automatically.

The measurement result and its unity are read directly on the large, backlit digital screen.

Three lights indicate any defect or interference liable to impair measurement results:

- red flashing FAULT LED (E-H): indicates a fault in the current circuit (voltage at terminals  $\geq 30$  V peak)
- red flashing HIGH RESISTANCE LED (ES-S): voltage circuit resistance too high ( $R \geq 50$  k $\Omega$ )
- red flashing HIGH NOISE LED (ES-S): voltage circuit noise  $\geq 13$  V peak

### VERY SAFE TO USE

When it comes to safety, the C.A 6460 and C.A 6462 meet the strictest of standards.

These instruments are very suitable to severe environments: parasitic voltages, high telluric currents, highly resistive auxiliary connections, etc.

# USE / APPLICATIONS:

## ■ Ground resistivity measurement with the "Wenner method" (4-rod method)

Depending on the soil's properties, this measurement defines the best positions, depth and geometry necessary for installing electric ground connections.

## ■ Ground connection resistance measurement with the "TAGG method" (62 % method)

This method, using 2 auxiliary rods, measures up to 2000  $\Omega$ , even in worst-case conditions.

Ground connection to be measured  
E(X)

## ■ Coupling measurement between two earths

4-wire measurements are considered better than 2-wire because they free you from cord resistance, which is often too high.

# TECHNICAL SPECIFICATIONS:

## MEASUREMENT CHARACTERISTICS

- Measurement from 0 to 2000  $\Omega$  within three automatic ranges

Measurement range	Resolution	Test current	Accuracy
0.00...19.99 $\Omega$	0.01 $\Omega$	10 mA	$\pm 2\% \pm 1$ pt
20.00...199.9 $\Omega$	0.1 $\Omega$	1 mA	$\pm 2\% \pm 1$ pt
200.0...1999 $\Omega$	1 $\Omega$	0.1 mA	$\pm 2\% \pm 3$ pt

- Measurement frequency: 128 Hz
- Open circuit voltage  $\leq 42$  V peak

- Conditions for use:  $-10\text{ }^\circ\text{C} \dots +55\text{ }^\circ\text{C} / 20\% \dots 90\% \text{ RH}$
- Response time: between 4 and 8 seconds depending on measurement conditions

## OTHER FEATURES

- Power supply

C.A 6460	C.A 6462
8 alkaline 1.5 V LR14 batteries or same-size rechargeable NiMH or NiCd storage batteries	Rechargeable NiMH battery (life: 6 h for a load at 80 %)

- Average charge life under permanent control

C.A 6460	C.A 6462
4,500 measurements of 15 s	1,180 measurements of 15 s

- Watertight IP 53 case
- Dimensions: 273 x 247 x 127 mm

- Weight: about 2.8 kg (C.A 6460) and about 3.3 kg (C.A 6462)

## COMPLIANCE TO STANDARDS

- Electric safety: double insulation device, according to NF EN 61010 / IEC 61557

- EMC: EN 61 000-3, EN 61 000-4

## TO ORDER

C.A 6460	C.A 6462
delivered with batteries and user's manual in 5 languages	delivered with 2 m European-type mains supply lead and user's manual in 5 languages
<b>P01.1265.01</b>	<b>P01.1265.02</b>

## ACCESSORIES:

### Standard Earth / Resistivity Kit

**P01.1018.23**

Shoulder bag with 4 straight rods, 2 extractors, 2 reels (30 m of red cord, 30 m of blue cord), 3 m of green cord, 3 m of black cord and 1 hammer.

### Prestige Earth / Resistivity Kit

**P01.1018.25**

Compartmentalized rigid bag with space for the tester, including 4 T-rods, 4 reels (100 m of red cord, 60 m of blue cord, 10 m of green cord and 20 m of black cord) and a hammer.

## REPLACEMENT PARTS:

- 1.5 V alkaline LR14 battery (pack of 2)
- 9.6 V – 3.5 AH NIMH storage battery
- European mains lead
- GB mains lead
- HPC 0.1A fuse (pack of 10)

# INLEC, supporting you to deliver a world class service, every day, in every sector ...

## OUR COMMITMENT TO YOU

### A wealth of knowledge and experience.

You can take advantage of expert advice to ensure you get the best, most appropriate and cost effective equipment for the job. We supply a wide variety of industries, so if there is another way to do the job or save you time and money we'll pass on the benefit of our experience for free.

### Honest advice, just a phone call away.

If we don't have a particular item, rather than hiring you something that won't do the job, we would rather direct you to an alternative supplier. You will always be provided with full instructions and if you still need help, call our technical team on Nationwide Low Call 0333 6000 600. Our aim is to save you time, frustration and money.

### Top quality equipment from major manufacturers.

With Inlec you'll get the most accurate, reliable and well-maintained equipment available. Prices are regularly reviewed to ensure you always enjoy the best value for money. We have made a significant investment in test equipment so we ensure that it's well packed to minimise damage and delay.

### We really do listen to you.

You won't waste your time contacting Inlec. Every request for equipment is logged and carefully considered. Listening to our customers helps keep our product range up to date and relevant. If you are unhappy about any aspect of our service please let us know so we can put it right.

## YOUR 5 WAY GUARANTEE

### 1 GUARANTEE SAME DAY DESPATCH

We understand why prompt delivery is important to you. So, if we confirm your order before 3pm, you are guaranteed same day despatch.

### 2 OUR PRICE GUARANTEE

Inlec guarantee you real value for money. Our price match policy is simple - if you can hire the same product for less elsewhere, we guarantee to match that price and reduce it by a further 10% of the difference - and still deliver our industry leading technical and customer support.

For full details check our price-match guarantee online

### 3 TOP QUALITY GUARANTEED

All equipment is thoroughly checked prior to dispatch to ensure you receive it in full, safe working order. Your shipment will be securely packed and include manufacturer's instructions, accessories or consumables and a valid calibration certificate where appropriate. In addition, Inlec offer a 24 hour replacement service if you decide the equipment is not suitable for your application\*.

### 4 FRIENDLY, KNOWLEDGEABLE ADVICE GUARANTEED

Inlec are happy to provide you with free advice, from an unbeatable team of experienced, knowledgeable and friendly engineers and hire experts.

### 5 YOUR GUARANTEE OF THE BEST CUSTOMER SERVICE

Throughout your hire we will work hard to ensure you enjoy the very best in support and service from Inlec. We guarantee you won't find better service anywhere in the industry.

\*subject to availability and conditions
