WHEN YOU CAN HIRE

# Comdronic Ltd AC6 Submittal Specification

## Technical Description

The Comdronic AC6 is an electronic manometer programmed to carry out differential pressure measurements primarily on balancing valves in the building services industry. The state-of-the-art software and extensive database of the world's balancing valves allows direct reading of flow, differential pressure, percentage of design flow and target flow.

The nine button design allows simple navigation of the easy-to-follow menu system with all parameters visible on screen.

System accuracy is guaranteed by the use of carefully selected sensors protected by **DSP technology™** with resolution and accuracy most appropriate for the range of differential pressures being measured.

## Measurement Accuracy

Differential pressure— better than 100 Pascals or 1% whichever is the greatest.

## Measurement Range

0.1 kPa to 250 kPa  
0 to 95 deg c

## Static Pressure

10 Bar Maximum

## Effective Operating Time

20 hours with standard Alkaline PP3 battery

## Project Management.

The AC6 commissioning unit can be supplied with PcomPRO™ project software to allow the user to upload complete project from PC to AC6. Valves can be named individually for ease of identifying on site. Valve settings can be saved on site for downloading to PC on completion of project. Data can then be copied to spreadsheet for submittal/records.

Contact Comdronic Ltd for further information or access website [www.comdronic.co.uk](http://www.comdronic.co.uk)

## Functions

### Displays

**Flow/Pressure display**—shows valve type, Kvs value, handwheel setting (Variable orifice), Differential pressure, Flow, valve maker, valve type, valve size. Flow and Pressure are shown in large text format

**Multi display**—shows valve type, Kvs value, handwheel setting (Variable orifice), Design flow, target Flow, Differential pressure, Flow, valve maker, valve type, valve size.

**Pressure display**—large text Differential pressure.

**Flow Display**—Large text flow.

**Predictive handwheel position**— For adjusting variable orifice valves.

**Chart recorder**—Shows signal from system in oscilloscope form.

**Valve storage**— Up to 100 storage locations are available for manually storing valve information on-site. This data can be uploaded to PC if using PcomPRO™. For projects larger than 100 valves use PcomPRO™ project software.

**Help** - Context sensitive help is available for all functions. Dedicated button available for this function

### Units

**Differential pressure**- Pa, kPa, psi, bar, feet H<sub>2</sub>O , Inches H<sub>2</sub>O , mtrs H<sub>2</sub>O , mm H<sub>2</sub>O, cm H<sub>2</sub>O.

**Flow**- l/s, l/m, l/h, galls/m (imperial), gpm (US).

**Temperature**— Celsius, Fahrenheit.

### Edit Functions

Design flow, target flow, specific gravity, Kvs, valve maker, valve group, valve model, valve size, handwheel position. Zero cutoff.

## Database

Up to 1500 valves and measuring devices from 37 manufacturers worldwide.

## Spares and Accessories

Tool belt for hands free portability.  
Replacement hoses up to 3 metres in length.  
Mechseal style and range of insertion testpoints.

# INLEC, supporting you to deliver a world class service, every day, in every sector ...

## OUR COMMITMENT TO YOU

### A wealth of knowledge and experience.

You can take advantage of expert advice to ensure you get the best, most appropriate and cost effective equipment for the job. We supply a wide variety of industries, so if there is another way to do the job or save you time and money we'll pass on the benefit of our experience for free.

### Honest advice, just a phone call away.

If we don't have a particular item, rather than hiring you something that won't do the job, we would rather direct you to an alternative supplier. You will always be provided with full instructions and if you still need help, call our technical team on Nationwide Low Call 0333 6000 600. Our aim is to save you time, frustration and money.

### Top quality equipment from major manufacturers.

With Inlec you'll get the most accurate, reliable and well-maintained equipment available. Prices are regularly reviewed to ensure you always enjoy the best value for money. We have made a significant investment in test equipment so we ensure that it's well packed to minimise damage and delay.

### We really do listen to you.

You won't waste your time contacting Inlec. Every request for equipment is logged and carefully considered. Listening to our customers helps keep our product range up to date and relevant. If you are unhappy about any aspect of our service please let us know so we can put it right.

## YOUR 5 WAY GUARANTEE

### 1 GUARANTEE SAME DAY DESPATCH

We understand why prompt delivery is important to you. So, if we confirm your order before 3pm, you are guaranteed same day despatch.

### 2 OUR PRICE GUARANTEE

Inlec guarantee you real value for money. Our price match policy is simple - if you can hire the same product for less elsewhere, we guarantee to match that price and reduce it by a further 10% of the difference - and still deliver our industry leading technical and customer support.

For full details check our price-match guarantee online

### 3 TOP QUALITY GUARANTEED

All equipment is thoroughly checked prior to dispatch to ensure you receive it in full, safe working order. Your shipment will be securely packed and include manufacturer's instructions, accessories or consumables and a valid calibration certificate where appropriate. In addition, Inlec offer a 24 hour replacement service if you decide the equipment is not suitable for your application\*.

### 4 FRIENDLY, KNOWLEDGEABLE ADVICE GUARANTEED

Inlec are happy to provide you with free advice, from an unbeatable team of experienced, knowledgeable and friendly engineers and hire experts.

### 5 YOUR GUARANTEE OF THE BEST CUSTOMER SERVICE

Throughout your hire we will work hard to ensure you enjoy the very best in support and service from Inlec. We guarantee you won't find better service anywhere in the industry.

\*subject to availability and conditions
