WHY BUY
WHEN YOU CAN HIRE

The **ROCKET** Portable Smoke System

5 YEAR
Pea Soup
warranty
Lifetime guarantee on heater block

- Compact and robust
- Off power capability
- Water based, non toxic smoke
- Persistent smoke remaining visible for long periods
- Controllable smoke, from a small wisp to a large plume
- World Class-leading particle size 0.2 micron mass median diameter
- NATO codified version available

General Specification (approx.)	PS23 ROCKET	PS25 ROCKET TURBO
Size (cm) (L x W x H)	36cm x 14cm x 20cm	
Weight	5.5kg	7kg
Heat exchanger wattage	1,100W	2,200W
Power Supply	230v, 50 – 450Hz* (110v, 50 – 450Hz* optional)	
Warm up time from cold	5 mins	4 mins
Duration of aerosol at maximum output, approx.	15 mins	8 mins
Smoke output	0 – 180 m ³ /min. (6,350 ft ³ /min.)	0 – 340 m ³ /min. (12,000 ft ³ /min.)
Particle size (mass median diameter)	0.2 - 0.3 micron	
Operation off the mains power supply?	Yes	

* 450Hz basic unit only

The Rocket is a compact, portable and powerful smoke generator that is incredibly easy to use.

In its Basic format, the Rocket can produce a considerable amount of smoke “off power” using the retained energy within the high mass heat exchanger block. This allows an operator to carry the generator from room to room, making smoke as required, without a trailing electrical lead. The Remote version allows for both “off power” and remote operation (the latter only applying whilst power is connected).

Simple to operate, these machines are used worldwide by numerous training centres, armed forces, shipping lines and fire authorities for adding realism to their training exercises. They are also very popular for air flow visualisation tests with HVAC contractors and analytical laboratories for LEV tests, spray booth clearance testing, leak testing as well as for special effects work in TV and film.

Principal of operation:

Smoke chemical, stored in a one-piece aluminium canister is forced under pressure through the precision machined heat exchanger, where it is vaporised. The vapour condenses to form a “smoke” effect with a class-leading particle size (an order of magnitude smaller than most “conventional” smoke systems), which means that dense smoke can be achieved for substantially lower concentration of chemical in the atmosphere. The resulting smoke has been analysed by independent laboratories to ensure that it is both non-toxic and non-flammable. Canisters re-seal after use, so no wastage occurs, and part-used canisters can be utilised later. Smoke from the systems can be ducted if required.

These smoke machines are particularly suited to large volume requirements due to their high persistency. The Rocket Turbo is one of the most powerful hand-held systems available today. Both units have a 5 year warranty with lifetime guarantee on the heater block

QUALITY ASSURED

Designed and produced under

INLEC, supporting you to deliver a world class service, every day, in every sector ...

OUR COMMITMENT TO YOU

A wealth of knowledge and experience.

You can take advantage of expert advice to ensure you get the best, most appropriate and cost effective equipment for the job. We supply a wide variety of industries, so if there is another way to do the job or save you time and money we'll pass on the benefit of our experience for free.

Honest advice, just a phone call away.

If we don't have a particular item, rather than hiring you something that won't do the job, we would rather direct you to an alternative supplier. You will always be provided with full instructions and if you still need help, call our technical team on Nationwide Low Call 0333 6000 600. Our aim is to save you time, frustration and money.

Top quality equipment from major manufacturers.

With Inlec you'll get the most accurate, reliable and well-maintained equipment available. Prices are regularly reviewed to ensure you always enjoy the best value for money. We have made a significant investment in test equipment so we ensure that it's well packed to minimise damage and delay.

We really do listen to you.

You won't waste your time contacting Inlec. Every request for equipment is logged and carefully considered. Listening to our customers helps keep our product range up to date and relevant. If you are unhappy about any aspect of our service please let us know so we can put it right.

YOUR 5 WAY GUARANTEE

1 GUARANTEE SAME DAY DESPATCH

We understand why prompt delivery is important to you. So, if we confirm your order before 3pm, you are guaranteed same day despatch.

2 OUR PRICE GUARANTEE

Inlec guarantee you real value for money. Our price match policy is simple - if you can hire the same product for less elsewhere, we guarantee to match that price and reduce it by a further 10% of the difference - and still deliver our industry leading technical and customer support.

For full details check our price-match guarantee online

3 TOP QUALITY GUARANTEED

All equipment is thoroughly checked prior to dispatch to ensure you receive it in full, safe working order. Your shipment will be securely packed and include manufacturer's instructions, accessories or consumables and a valid calibration certificate where appropriate. In addition, Inlec offer a 24 hour replacement service if you decide the equipment is not suitable for your application*.

4 FRIENDLY, KNOWLEDGEABLE ADVICE GUARANTEED

Inlec are happy to provide you with free advice, from an unbeatable team of experienced, knowledgeable and friendly engineers and hire experts.

5 YOUR GUARANTEE OF THE BEST CUSTOMER SERVICE

Throughout your hire we will work hard to ensure you enjoy the very best in support and service from Inlec. We guarantee you won't find better service anywhere in the industry.
