WHY BUY
WHEN YOU CAN HIRE

ESG NT

Digital Earth Fault Locator

Benefits

- ▶ **Very high sensitivity**
- ▶ **Automatic adaptation to voltage level**
- ▶ **Automatic filtration of interfering signals**
- ▶ **Automatic zero calibration, no adjustments necessary**
- ▶ **History mode**
- ▶ **High-contrast color display**

The pinpointing procedure

Pinpointing means the precise location of faults in the cable sheath. These faults cause the measuring current to flow into the ground. When it exits the cable at the fault point, the measuring current builds a voltage gradient which can be measured by earth rods and earth fault locators. The accurate location of sheath faults is done by the step voltage method: as it approaches the fault point, the step voltage potential increases, decreasing with reversed polarity after it passes the fault. The change in polarity allows the fault to be located precisely.

Functional description

The ESG NT earth fault locator measures the step voltage potential produced by a test generator in the underground. Other existing underground distortions such as potential equalisation current, DC offset, 16 2/3 Hz or influences of cathodic protection systems are automatically detected and eliminated. The automatic zero calibration maintains display calibration continuously at zero.

The ESG NT has a high-contrast color display on which the measured step voltage is displayed in two ways: as a bar graph (similar to a conventional pointer instrument), and as a continuing "history-display" which shows both the current process and the last 5 to 6 measurement records. In this way, changes are displayed continuously and very clearly. The deflection of the instrument always indicates the direction of the earth fault.

Due to the proven SebaKMT EasyGo principle, almost no operational steps are required. Basic settings can be made in the easiest way possible by using the rotary encoder.

The ESG NT adapts automatically to the input voltage level. Neither manual calibration of the display and the zero point, nor the adaption of the measuring range is necessary.

Moreover, the ESG NT has an automatic pulse detection, which allows working with almost any type of pulse generator.

Scope of delivery

- ▶ Receiver ESG NT
- ▶ 2 earth rods
- ▶ 2 connection cables
- ▶ 1 set of batteries
- ▶ Manual

Technical data

ESG NT

Display	High-contrast color TFT, 320 x 240 pixels
Sensitivity	5 μ V ... 200 V
Suppression of disturbances	50/60 Hz, 16 2/3 Hz, KKS, DC
Zero adjustment	Automatically
Power supply	6 x LR6 Alkali-Mangan
Operation time	> 20 hours
Protection class	IP 54
Dimensions receiver (H x B x D)	65 x 225 x 100 mm
Weight receiver	0.9 kg (including batteries)
Length earth rods	1 m (dividable and isolated)
Weight earth rods	0.8 kg each
Length test leads	2 m

All advantages at a glance

- ▶ Automatic suppression of external potentials
- ▶ Automatic adaptation to the voltage level
- ▶ Automatic detection of the pulse rate
- ▶ Automatic zero adjustment
- ▶ Very high measuring sensitivity in the μ V range
- ▶ Very easy operation
- ▶ Cable mounting at the dividable insulated earth rod

Options

- ▶ A-Frame
- ▶ Vehicle Mounting

INLEC, supporting you to deliver a world class service, every day, in every sector ...

OUR COMMITMENT TO YOU

A wealth of knowledge and experience.

You can take advantage of expert advice to ensure you get the best, most appropriate and cost effective equipment for the job. We supply a wide variety of industries, so if there is another way to do the job or save you time and money we'll pass on the benefit of our experience for free.

Honest advice, just a phone call away.

If we don't have a particular item, rather than hiring you something that won't do the job, we would rather direct you to an alternative supplier. You will always be provided with full instructions and if you still need help, call our technical team on Nationwide Low Call 0333 6000 600. Our aim is to save you time, frustration and money.

Top quality equipment from major manufacturers.

With Inlec you'll get the most accurate, reliable and well-maintained equipment available. Prices are regularly reviewed to ensure you always enjoy the best value for money. We have made a significant investment in test equipment so we ensure that it's well packed to minimise damage and delay.

We really do listen to you.

You won't waste your time contacting Inlec. Every request for equipment is logged and carefully considered. Listening to our customers helps keep our product range up to date and relevant. If you are unhappy about any aspect of our service please let us know so we can put it right.

YOUR 5 WAY GUARANTEE

1 GUARANTEE SAME DAY DESPATCH

We understand why prompt delivery is important to you. So, if we confirm your order before 3pm, you are guaranteed same day despatch.

2 OUR PRICE GUARANTEE

Inlec guarantee you real value for money. Our price match policy is simple - if you can hire the same product for less elsewhere, we guarantee to match that price and reduce it by a further 10% of the difference - and still deliver our industry leading technical and customer support.

For full details check our price-match guarantee online

3 TOP QUALITY GUARANTEED

All equipment is thoroughly checked prior to dispatch to ensure you receive it in full, safe working order. Your shipment will be securely packed and include manufacturer's instructions, accessories or consumables and a valid calibration certificate where appropriate. In addition, Inlec offer a 24 hour replacement service if you decide the equipment is not suitable for your application*.

4 FRIENDLY, KNOWLEDGEABLE ADVICE GUARANTEED

Inlec are happy to provide you with free advice, from an unbeatable team of experienced, knowledgeable and friendly engineers and hire experts.

5 YOUR GUARANTEE OF THE BEST CUSTOMER SERVICE

Throughout your hire we will work hard to ensure you enjoy the very best in support and service from Inlec. We guarantee you won't find better service anywhere in the industry.
