Surveying Drains, Chimneys & Buildings Can Be Made A Lot Easier With The TV Inspection Camera

With this kit you will be able to view, fix and report problems efficiently and access areas that would have previously been unreachable - saving time & money. The **TV Cam** is the perfect solution for a wide range of applications and industries, whether that be the inspection of pipes & drains, or wider usage including machinery inspections, construction projects or cable ducts.

The **TV Cam** provides a solution for troubleshooting issues, and the inspection can be documented via the on-board display. The resulting video can then be saved to a SD card and reviewed on PC/Mac.

In addition, the kit has a keyboard allowing text to be stored on screen during the survey. Results are stored on included SD Card for easy retrieval. The camera is packed in a compact and rugged storage case with the locator

HSUK HMU1

Specifications

- Drain, Wiring, Pipes, Roof Surveys and Much More
- 420 Line Waterproof Colour LCD
- USB Slot For Recording
- 14 Ultra Bright White LED's Giving Clear Footage
